

Conflict Minerals Policy Statement

Frost Electroplating Ltd supports the ending of violence and human rights violations in the mining of minerals from the area known as the "Conflict Region" in the east of the Democratic Republic of Congo (DRC) and surrounding countries.

We have undertaken due diligence with our suppliers including the provision of written statements that our purchases of tin and gold salts originate from outside of the "Conflict Region".

Frost Electroplating Ltd will not knowingly purchase products that contain conflict minerals that directly or indirectly finance or benefit armed groups in the DRC or adjoining countries.

Frost Electroplating Ltd expects its suppliers of tin and gold salts to only source minerals from responsible sources.

William Southall
